

## THE ROUSSEAU DRAWER : FIRST TO THE FINISH LINE

### *The sturdiest and the most durable on the market*

Tested in an independent laboratory, the Rousseau drawer proved its superiority on many levels : loaded to its full capacity, the Rousseau drawer completed three times more cycles than the four major competing brands used in the same test, and all of this, without showing any signs of wear. The Rousseau drawer has become the champion of its category. Its durability is three times greater than that of the competition.

As a result, its performance can be defined in terms of its durability. The Rousseau drawer's sturdy construction offers superior output while having a much longer lifespan. This is why Rousseau doesn't even hesitate to offer a Lifetime Warranty on its modular drawer. An undeniable advantage!

The Rousseau drawers last 3 times longer than their closest competitor's drawers.

### *A multitude of accessories*

The Rousseau drawer makes your work easy : The vast array of accessories offered, all of which are compatible with each other, contribute to maximizing the organization of your work space. In addition, all of these accessories can be easily rearranged according to your needs, making them a joy to use and displaying just how highly functional they are.

### *Streamlined design*

In addition to being sturdy and functional, the Rousseau drawer has an alluring appearance. It fits just as well in an office as it does in a factory. It allows you to arrange your work space in a harmonious and aesthetic fashion.
